Dear Flower Friends, PLEASE NOTICE--THE YEARLY SUBSCRIPTION HAD TO RAISE a few pennies. Postage has doubled and then doubled again and ends cannot meet to carry the added expense otherwise. Everything else increases in prices, seeds must too.

Our BIG THANKS to out to ALL OF YOU THAT COOPERATED with sending in seeds, subscriptions and orders as it is only with this cooperation that the Co-op continues. When you join with the rest of us it means that much boosting for us all with you as the CHIEF BENEFACTOR. DO YOUR PART so we can do ours. We are always happy to send generous exchanges of seed when you send goodly amounts of seed in but PLEASE DO NOT ASK FOR SEED EXCHANGE TO BE SENT FIRST FROM THE CO-OP before your seed comes in. That is credit that cannot be given. Exchanges are sent out on the seed you send in that seed for which there are calls that will stand the future expenses. A big list of names may turn out to be individual packets that cannot even be listed, as each seed listed has at least 50 packets back of it unless listed in the Small Amounts columns. This insures as much as possible for each to obtain seed at these low, low GIVE AWAY PRICES. Expenses must be met and this is the only way it can be done. All cleaned seed is much appreciated as well as goodly supply. Its up to YOU if you want the Co-op continued.

To correct a mistake in the last list the HARDY GLADIOLA PRICE SHOULD READ 20 bulbs for \$1.25. Price the same as for the Pink Eremurus that look like huge pink Delphiniums \$2.50 per root--not \$4. to \$8. the big place ask. These prices include postage so get your orders in early as the bulbs will not last long. Good gardening to all. Yours, M. Hoffman
